

2007 Skills Canada - Manitoba High School Building Competition

Skills Canada - Manitoba - is a non-profit organization that brings students, employers, and educators together with a goal to develop a skilled and technical workforce, and to improve the public perception of trade based careers.

On Thursday, **April 12, 2007**, Red River College will once again be the site for the Skills Canada - Manitoba Competition. The Winnipeg Construction Association will be organizing the Carpentry and Cabinetry Competition. WCA will be recruiting judges, providing building materials, and presenting registrant prizes.

The top three competitors in each category will receive a medal presented at the end of this day-long competition. Successful competitors can go on to national level competition. **The majority of students that have participated in this event have gone on to a successful career in our industry**

As in previous years, we are encouraging General Contractor and Millwork firms to consider making a donation by way of a contribution toward the bursary, materials, and registrant prizes for this worthwhile event.

Please indicate below if your firm would be willing to contribute to this event:

Yes, I would like to be a supporter:

(Supporters are listed on signage and recognized on the program. Deadline for signage is Wednesday, April 5, 2007).
