

WINNIPEG CONSTRUCTION ASSOCIATION CCDC2 2008 SEMINAR

Betty Johnstone, Aikins MacAulay & Thorvaldson LLP

CCDC2 "Stipulated Price Contract" is probably Canada's most widely used construction document today. After more than 2 years of discussion, an updated form of the existing CCDC2 - 1994 is about to be released. There are changes, clarifications and drafting refinements included in the new CCDC2 2008 form along with new Insurance, Mould and Toxic & Hazardous Substances general conditions now reconciled with the new CCDC 41 "Insurance Requirements".

The new CCDC2 2008 will be available for purchase online February 1, 2008 and is intended to immediately replace CCDC2 1994. Find out more about these changes from our expert on construction contracts in this repeat seminar, first offered in November 2006 through the WCA.

FRIDAY, FEBRUARY 15, 2008

Hilton Suites Hotel, Winnipeg Airport, 800 Wellington Avenue
