CSC is a multi-disciplinary, non-profit association dedicated to the improvement of communication, contract documentation and technical information in the construction industry.

Principles of Construction Documentation

Construction Specifications Canada is pleased to again offer Principles of Construction Documentations, an introductory level course designed for all members of the construction industry wishing to gain a firm foundation of basic construction documentation principles and procedures. This educational program is presented by the **Winnipeg Chapter of CSC** and is approved as part of the educational component Canadian Construction Association's Gold Seal Program, Interior Designers of Canada, & Engineering Technologists.

Successful completion of the course will provide you with the educational pre-requisite to proceed with one of the three educational/certification streams offered by **CSC**;

- ❑ **Registered Specification Writer (RSW)**
- ❑ **Certified Technical Representative (CTR)**
- ❑ **Certified Construction Contract Administrator (CCCA)**

The course is designed to explore the principles of contract relationships and other aspects of the construction industry including;

- ❑ Construction Industry Participants and Information Exchange
- ❑ Drawing and Specifications Relationships
- ❑ The Formation of a Contract
- ❑ Risks and Liability
- ❑ Bidding Procedures
- ❑ Specification Language
- ❑ Product Evaluation Selection
- ❑ Contract Administration

CSC educational programs are not part of the institutional learning one endures prior to entering the work force. They are a vehicle for sharing our background and experiences with each other, making us cognizant of each other's roles and responsibilities, gaining mutual respect for each other, and achieving a measure of recognition in the experience.
